

Are you a **Breeder Manager / Hatchery Assistant** interested in being part of an essential company that feeds the world? If providing hands-on operations support while being part of a team focused on excellence energizes you, consider joining our team!

We are looking for someone who matches our vision and values AND can offer production skills as a key player on our team. In this crucial role, you will work alongside genuine, hard-working team members to fulfill our mission. We are a successful privately-held company who offers meaningful career experiences, and recognizes team members' hard work with great, creative rewards.

In this role, you will be based at our Bryan, TX location and will serve as a **Breeder Manager / Hatchery Assistant** for **Hy-Line North America, LLC**. Your main focus will be the overall management of the Texas breeder flocks, working with our contract growers, and also working and assisting in the hatchery with the critical processes involved with the hatching and processing requirements. In this critical role, you will work with diverse and multi-national Hy-Line team members focused on Hy-Line's vision and values.

We're seeking candidates with agricultural experience in breeder management and hatchery processes. Candidates must be reliable and team-focused. We strongly prefer candidates who understand what needs to be done as much as getting it done. Candidates with a proactive "doer" mindset will be given preference. We value growth potential and fit as much as formal experience and education. Experience in the agriculture industry is preferred but not required and bi-lingual would be a plus.

Apply today by emailing your cover letter and resume to HR@hyline.com. We're anxious to learn more about you and share the Hy-Line story!
